

UZBEKISTAN COUNTRY OF YOUTH

Nigina Shoeva

Shorchi district governor's press secretary,

Advisor on information policy issues

Rapidly changing processes and innovations require each of us to study, work, and research better and more efficiently than today and tomorrow. In such a period, only talented people, qualified personnel who approach their work responsibly can achieve the best results. After all, the future of the country is in the hands of young people, development will accelerate with their active participation. This is also confirmed by the significant achievements of our future owners in education, production and other aspects of life.

If we talk about the achievement and success of students in Shorchi district of Surkhandarya region, it is certainly worthy of recognition.

During the 2022-2023 academic year, 24 students from our district entered world-class universities in our Republic ahead of schedule. Jalaliddin Rakhmatov is one of our talented and potential young people. On the eve of graduating from the 47th general education school, he entered Chungnam National University in Daejong, South Korea, while Sarvar Bekturodov, a graduate of the 44 th general education school, was admitted to RDP University in Great Britain ahead of schedule.

-Because I learned the secrets of science from my teachers, I started studying before the deadline, - says Jaloliddin Rakhmatov. – In the future, I will graduate from university and try to become a mature person who will benefit our society. Of course, these successes did not happen by themselves. I was able to achieve success primarily due to the conditions, privileges and opportunities created for young people in our country, as well as due to the efforts of our teachers.

Indeed, among the youth of our district, there are many young people who are distinguished by their special abilities. Their poetic exercises, developments in life drawing and crafts, melodious songs will not leave anyone indifferent. Working with young people is a matter of life and death. Therefore, in our country, special attention is paid to the education of young people. In today's dangerous times, it is necessary to protect our children from the influence of various foreign ideas, to take care of young people and show them the right way before others take over their thoughts. Accelerating individual work with young people, returning young people who are separated from society, unable to find their place in life, influenced by foreign ideas to active life is the most important task before us. A new program has been developed for the organization of spiritual-educational and patriotic events and youth elections among the youth of the neighborhood. We will be able to demonstrate the effectiveness of the reforms in the life of every young person by timely and quality performance of the tasks set before us in the youth issue. With this, we will achieve that young people feel the care provided by our state and enter an active life.

The competition of the State Security Service Cup was organized in order to encourage young people to play sports, especially to show their talents and potential through the game of football. In this, the youth of 53 mahallas of our district gathered on the green field and strived for victory.

Football girls also showed their skills at the State Security Service Cup competition. As a result, the football players of Navroz neighborhood won the 3rd place, and the girls of Yalti neighborhood won the 2nd place. Football girls from "Qaraariq" neighborhood, who won the 1st place in the district stage of the competition, will participate in the regional stage. Diplomas, medals, commemorative telephones, television sets and winning cups were awarded to the winning teams.

In the mini-football competition of the State Security Service Cup, luck smiled at the local youth. Football youth teams from 53 neighborhoods in our district actively participated in the competition. As a result, the youth football players of "Babur" neighborhood took the 3rd place, and the youth of Bobotog took the 2nd place.

- First, we competed with rival teams in the sector stage and got a ticket to the district stage, - says Nurbek Hayitov. In addition, our team's support for each other, the fact that we played together on the green field made us the winner.

Football players of the "Koklam" neighborhood won the football competition of the State Security Service Cup and participated in the regional stage. The 3rd place in the competition was won by the youth players of "Navroz" neighborhood. The 2nd place went to young saddlers.

Uzbekistan, which supports young people in every way and rejoices in their successes, is truly a country of young people.
